

# Leadership Development Plan

(Broughton, 2016)

## Leadership Evaluator

Assessment enables managers and peers to become aware of their strengths and areas of growth from diverse perspectives.

Diagnosis provides managers and peers with profound insights concerning strengths and areas of growth needed to improve decision-making and performance.

Interventions help managers and supervisors better understand worker needs and leadership skills necessary to increase self-regulatory behavior.

Measurable Success Allows managers and peers to calibrate the growth achieved through the strategic plan for leadership development.
